

Look Book

I N T R O D U C T I O N

At HSS, each property is approached as its own expression. We believe no two homes are the same and our styling reflects this through carefully curated design selections that respond to the architecture, light, scale, and targeted buyers for each space.

Our styling approach is a balance of structure and softness, pairing refined silhouettes with thoughtful materials to enhance what already exists while introducing considered elements that feel contemporary and relevant. Every selection is intentional - designed to create flow, cohesion, and an emotional connection that allows buyers to see themselves within the home.

This lookbook provides a glimpse into our belief of purposeful curation: styling that feels confident, intuitive, and tailored - elevating each property through design that is both distinctive and aligned.

Amy Bojorquez

CREATIVE DIRECTOR
